

ADVANCED DRONE SOLUTIONS

ADS Wash Kit

Specification Sheet

Thanks for your interest. The full specification sheet for this system is being finalized and will be sent to you directly — we have your details and someone will follow up shortly with the current numbers for the configuration you are considering.

Specifications vary by configuration and are subject to change. We would rather send you numbers we can stand behind than a sheet that is out of date, so please treat any figures quoted elsewhere as indicative until confirmed in writing.
